

Instructions for running the I+ Trainer on Windows devices

If you have devices running on Windows system, installing an emulator that simulates an 'Android' environment will allow you to use the I+ Trainer software (how to install on iOS devices will come soon). Please follow the instructions below:

To be able to run I+ Trainer on Windows devices we advise to use the '**BlueStacks Android Emulator**'.

1. Go to <https://www.bluestacks.com/> to download the installer
2. Install on your PC/laptop/tablet
3. Start 'BlueStacks'. It will bring Android device in separate window
4. Ensure that you have 'PDF viewer' and 'File explorer' installed on the 'BlueStacks' emulator
